

Alright, so you've
got to clean
the bathroom
Ugh. Where do
you even start?
Don't worry—
I got you.
Welcome back
to
**FLOW LIFE
SKILLZ.**

flow

First, you wanna
get your cleaning
supplies together.

ANY KIND
OF SIMPLE
SURFACE
CLEANER

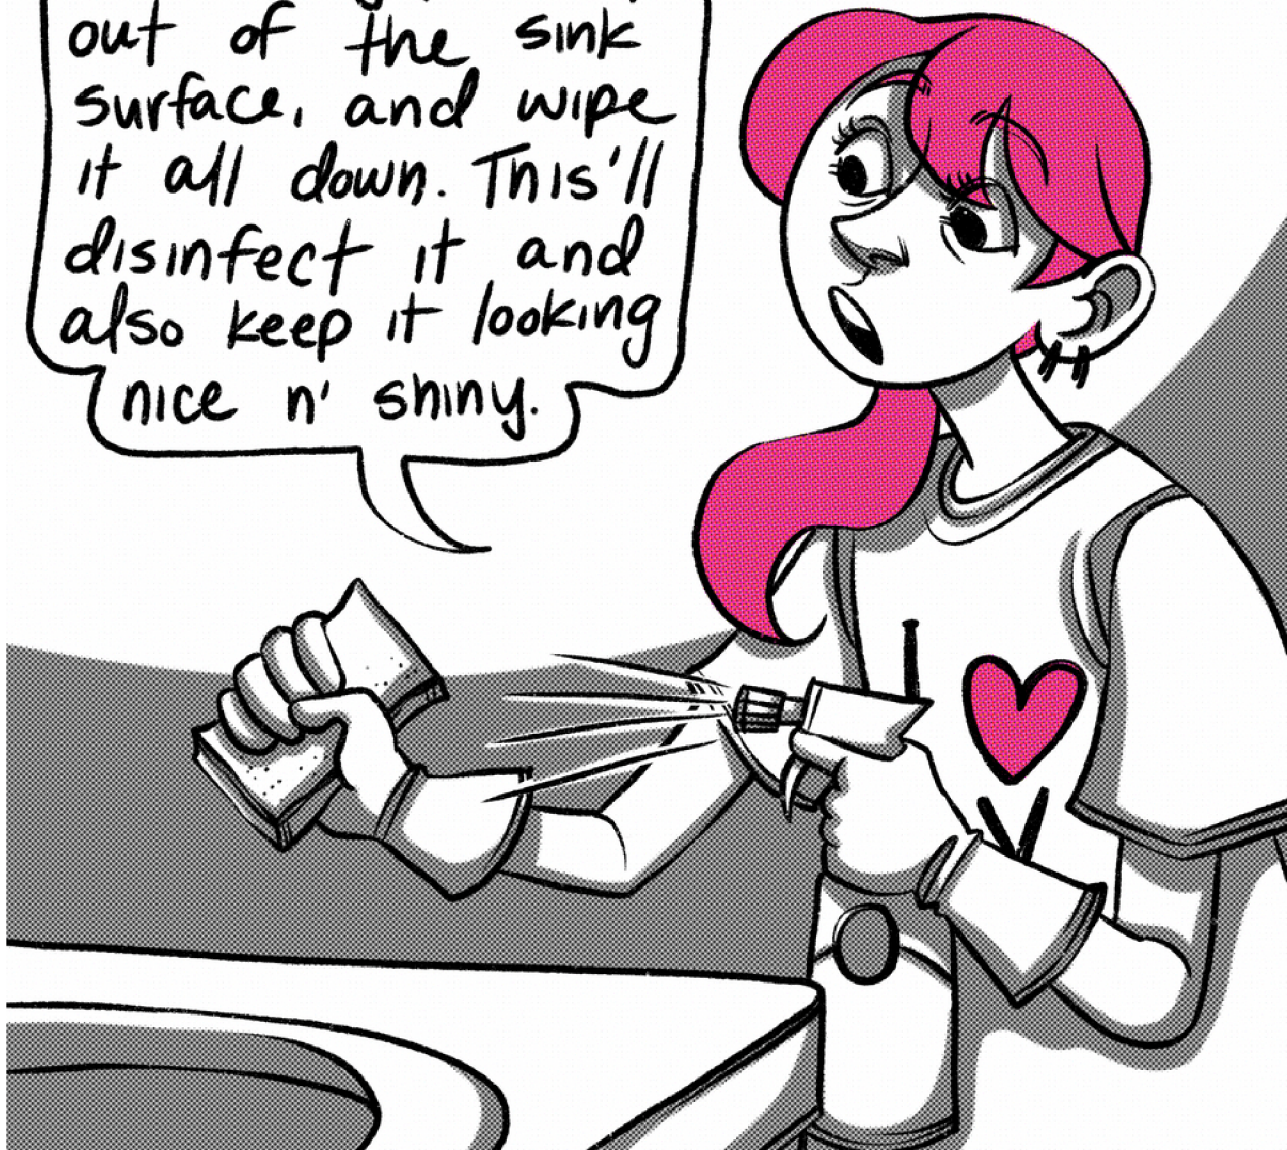

A FEW
SPONGES
AND RAGS

GLASS
CLEANER

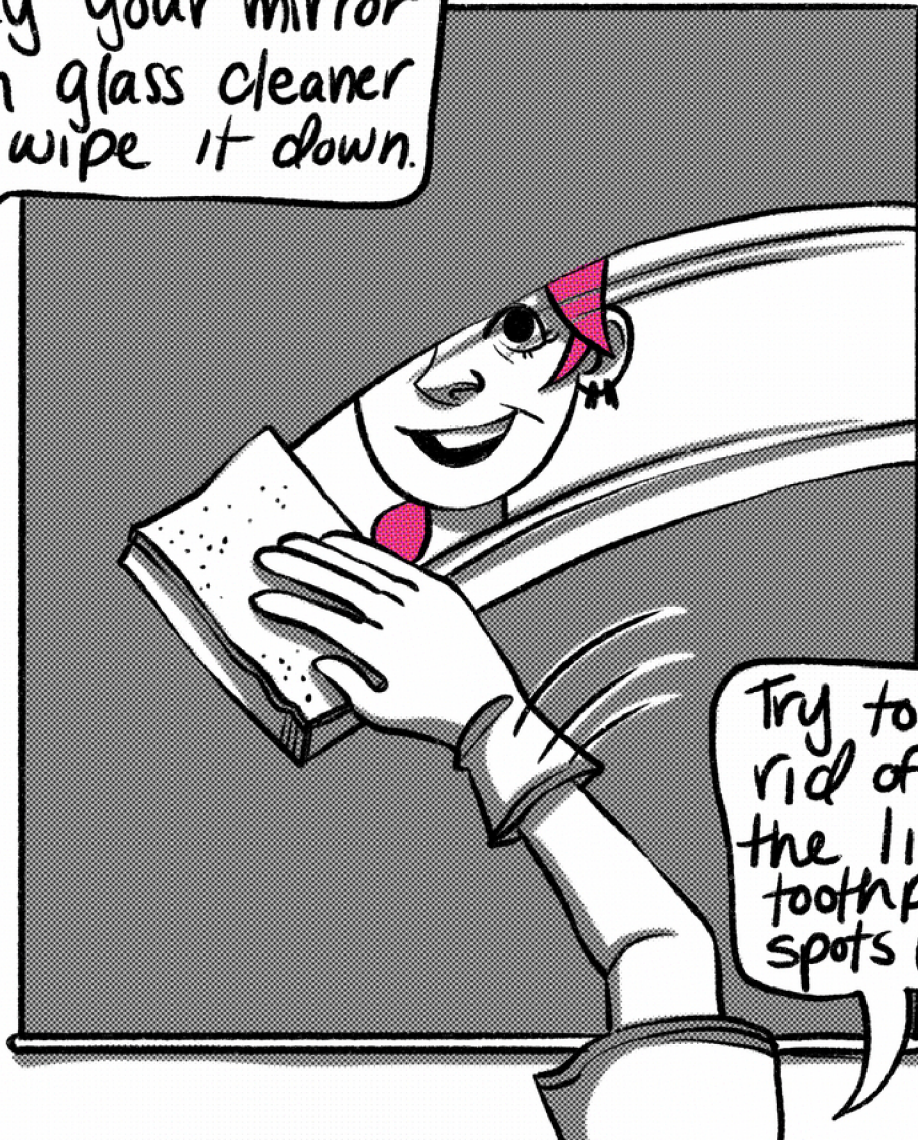

BLEACH
SPRAY

BROOM

First, spray the crap
out of the sink
surface, and wipe
it all down. This'll
disinfect it and
also keep it looking
nice n' shiny.

Once that's done,
spray your mirror
with glass cleaner
and wipe it down.

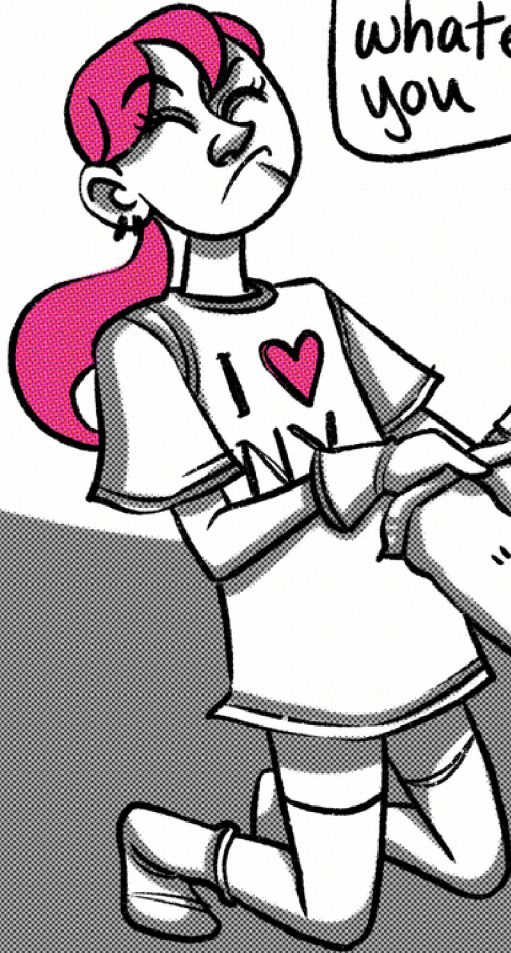

Try to get
rid of all
the little
toothpaste
spots (ew.)

Then... the bleach. This is an essential for in and all around the toilet, and in the shower. It won't take long & it'll keep things clean. Scrub scrub scrub!!

Finally - the dreaded **FLOOR**.
First you wanna shake out
whatever rugs or floor mats
you might have + set
those aside.

WHIP

Sweep all that nastiness up!
Then, you should mop about once a month. I use a swiffer! It's super easy.

BRUSH
